FEDERAL EMPLOYEES SALARY ACT OF 1965

1. The President has signed into law the Federal Employees Salary Act of 1965 which provides salary increases for Federal employees who are compensated under the provisions of the Classification Act of 1949, as amended. In keeping with established policy, the Director of Central Intelligence has adopted the pertinent provisions of this act for incorporation into the Agency's salary administration program. Accordingly, an across-the-board salary increase of 3.6 percent for officers and employees of the Agency was effective 10 October 1965.

2. Salary checks to be issued on 5 November 1965 for the pay period 10 through 23 October for employees paid on a biweekly basis will be based on the new increased rates of compensation listed on page 3 of this notice. Since the computation of the payroll for the period 26 September through 23 October for employees paid every two biweekly pay periods has substantially been completed, time and facilities do not permit recomputation to include the increased salary for the one biweekly pay period, 10 through 23 October. That increase will be included in salary checks for the pay period 24 October through 20 November to be distributed on 1 December 1965.

3. Individuals whose salary rate is increased to the next higher thousand (e.g., GS-10, step 1--from \$7,900 to \$8,184) will be eligible for increased insurance under the Federal Employees Government Life Insurance Act of 1954. The increased insurance and increased premium will be effective with the pay period beginning 24 October 1965. Accordingly, the checks received 5 November 1965 for the period 10 through 23 October will NOT reflect an increased premium.

4. The Federal Employees Salary Act of 1965 also contains the following provisions which affect Agency employees:

a. Increase in the uniform allowance authorized for certain civilian employees from \$100 to \$125 per annum, effective 29 October 1965. HR will be revised to reflect this increase.
